**Learning:** JavaScript, Nodejs, Express, Go, MongoDB.

**Soft Skills:** Analytical thinking, problem-solving, teamwork, communication, adaptability, empathy.

## Hobbies

---

I have a passion for video games, finding them both entertaining and stimulating for problem-solving. Music is not just a hobby but an integral part of my life; I enjoy exploring new genres and artists, and I often find inspiration for my work through music. When it comes to reading, I enjoy diving into a wide range of materials, from technical documents to fantasy, drama, or horror novels.
